My first document

This is a short example of a LaTeX document I wrote on 6. Januar 2016. It shows a few simple features of automated typesetting, including

- setting the default font size to 12pt;

- specifying 'article' type for formatting;

- using the Palatino typeface;

- adding special formatting for URL;

- formatting a heading in 'section' style;

- using the LaTeX logo;

- generating today's date;

- formatting a list of items;

- centering and italicizing;

- autonumbering the pages.

More information

This example was taken from 'Formatting Information', which you can download from `http://www.ctan.org/tex-archive/info/beginlatex/` and use as a teach-yourself guide.

Have a nice day!
